

About Huawei

Huawei is a leading global information and communications technology (ICT) solutions provider. We provide telecom carriers, enterprises, and consumers with competitive ICT solutions, products, and services. We work in more than 170 countries and regions, serving over one-third of the world's population. Among our 180,000 employees, there are more than 160 different nationalities with a localization rate of almost 70%. Huawei's vision and mission is to bring digital to every person, home and organization for a fully connected, intelligent world. We maintained our strategic focus, intensified efforts in improving operations quality, and created value for our customers. Our 2017 annual revenue was 92.549 billion USD.

Huawei is a leading global ICT (Information and Communication Technology) and network energy solutions provider. Currently, Huawei network energy products and solutions are used in over 170 countries, serving one third of the world's population. Huawei continuously brings high-quality products and services based on its experience accumulated over the past three decades. Ranked 72nd on the Fortune Global 500 companies, Huawei innovatively integrates digital information technologies such as AI, IoT, big data, and cloud computing, with PV technology, to promote industry-leading smart PV solutions for both utility-scale/commercial and residential scenarios. Huawei smart PV solutions bring digitalization to every PV plant and renewable energy enterprise, enabling our customers and partners to lead in the intelligent world. It has been widely deployed in various countries and regions, and recognized by customers from China, Europe, Japan, America, India, Asia Pacific and Latin America regions. Based on reports released by global consultancies IHS Markit and GTM Research, Huawei was ranked No. 1 globally in inverter shipment for three consecutive years, 2015, 2016 and 2017.

Derived from the design concept of being Simple, Fully-Digital, and Smart O&M (Operation and Maintenance), Huawei FusionSolar Smart PV Solution provides industry-leading solutions for both utility-scale and commercial scenarios. By optimizing and innovating the entire process from power plant design and construction to O&M (Operation and Maintenance), Huawei realizes its core value of "Higher Yields, Smart O&M, Safe and Reliable", in which greatly optimizes initial investments, improves O&M (Operation and Maintenance) efficiency, raises energy yield, and increases ROI (Return on Investment) of the PV plant.

With rapid digitalization of people's daily life, Huawei FusionHome Smart Energy Solution is a one-fits-all battery ready solution that offers exceptional user experience through refined smart energy management and easy installation. "More Energy, Pay Less", "Battery Ready, Secure Future" and "Make Solar Elegant" are key values of Huawei FusionHome, bringing people smarter energy for a better life.
